

Youth Areas

The Noble County Public Library (Library) strives to create safe and comfortable areas for all ages. Youth, especially, need spaces where they feel comfortable while exploring, learning, and socializing. The following guidelines are to help create and maintain those spaces:

- **Children's areas:** These areas are for young children with their parents or guardians.
- **Tween areas:** These areas are for elementary age youth.
- **Teen areas:** These areas are for middle and high school age youth.

Patrons that do not fall into the parameters above are allowed to browse and search for books/materials for a short period of time (15-20 minutes) but are asked to go to other areas of the library to read, use computers, and socialize.
